

Lunik, Other Side

On the other side
Is another world
I adore
'Cause a better world
I've never seen before

Clouds
I've just left behind
And I try
To keep them in my mind

It's dark
I've just left behind mistakes
A new task maybe waits
In another world

On the other side
Is another world
I adore
'Cause a better world
I've never seen before

Fears
I've just left behind
And I'll try
To keep them in my mind

New grounds
I'm their pioneer
Fatal armed
Human's knowledge is my gear

On the other side
Is another world
I adore
'Cause a better world
I've never seen before

On the other side
Is another world
I adore
'Cause a better world
I've never seen before

Seen before
Seen before
