

# Lush, Ocean

Come with me  
Into a cool blue stream  
Bleed into oceans green  
Lips open wide  
Drinking the tide  
Reach for me  
Here where the ocean sea  
Melts and you sink with me  
Deeper inside  
I'll make you mine  
Take me down  
Down where their voices drown  
Down where the only sound  
Echoes for me  
Floating away  
Under the waves  
Kiss me again  
You'll tell me when  
Salt on my lips  
Cool fingertips  
Under the sea  
Stay here with me
