

Lush, Outside World

(Anderson)

Lately, I don't feel quite as I should
Lately, I don't feel quite as I could

I've been tired, lonely, sick of all this talk
It's been heading downward since we left New York

Lately, I've been feeling really down
Sorry, but my mind's in London town

Is it me or are these hotels really bad?
I want some decent TV, not this endless ad

Don't worry, you're a long, long way from home
People speak to me but I feel so alone

Don't worry, you're a long, long way from home
People speak to me but I feel so alone

Can't you understand my body's changing fast
It's not up to me how long I'm going to last
