Luther Vandross, Hit It Again

(feat. Queen Latifah)

Well by now you know Im insatiable

Cause when you step to leave I want a full repeat, yeah

Its a miracle, you were right inside my head

If the feelings nice, why not do it twice?

It is not against the law, no baby

I slave all through the week

And I need my release

I work hard so when I stop

I gotta get a little satisfaction for me

Hit it again

Dont care if Im late

The world just has to wait

Hit it again, hit it again, baby

Hit it again

I loved it the first time

Sent chills up through my spine

Hit it again, hit it again, baby

Deep emotion aint got nothing to do with it

And being in love aint really got a thing to do with it

I hope you understand

But I cant worry if you dont, oh no

If I cant double up

Its like I didnt get enough

Call me greedy if you want, just do it

But its something that will never change

I dont get no complaints

They know it when they ring my bell

That this could be a thing that could take a little while, well, well

Hit it again

Dont care if Im late

The world just has to wait

Hit it again, hit it again, baby

Hit it again

I loved it the first time

Sent chills up through my spine

Hit it again, hit it again, baby

I declare the point to be

Once is not enough for me

Two time lovin makes me smile

One time love just aint my style

Repeat the love and I have found

More the second time around

It builds me up I love to love

And if I cant hit it again

It aint natural

Hit it again

Dont care if Im late

The world just has to wait

Hit it again, hit it again, baby

Hit it again

I loved it the first time

Sent chills up through my spine

Hit it again, hit it again, baby
