

LuvBug, Resonance (ft. Talay Riley)

If you really care, you will care less
Fight the fear been feeling, feelings
Turn at the ...we want enormous
Blood on the floor but it was floorless, floorless,
Resonance running through my mind
Resonance burning through my brain
Resonance running through my mind
I need this resonance

If you really care you would care less
Fight the fear been feeling, feeling
Turn at the ...we want enormous
Blood on the floor but it was floorless, floorless,
Resonance running through my mind
Resonance burning through my brain
Resonance running through my mind
I need this resonance

Resonance running through my mind
Resonance burning through my brain
Resonance running through my mind
I need this resonance
