

# Luxuria, We Keep On Getting There

We keep on getting there  
we'll keep on until we do  
I wouldn't hold my breath  
if I were you  
right now this could be anywhere

We keep on getting there  
will we never arrive?  
and if we ever do  
will we still be alive?  
they say we're beyond repair  
we keep on getting there  
we keep on getting there

We keep on getting there  
our nerves always raw  
as it was long ago  
we've been here before  
never, never again we swear

We keep on getting there  
the tribe time forgot  
we can hardly wait  
whether we want to or not  
you'll never catch us unaware  
we keep on getting there  
we keep on getting there

We keep on getting there  
we're going with the flow  
for the likes of us  
there's nowhere else to go  
we keep on getting there  
there's no going back  
we move from sign to sign  
ahead of attack

On a withered wing  
with a one word prayer  
it's more than  
I thought I could ever bear  
we keep on getting there  
we keep on getting there  
we keep on
