

# Lyfe Jennings, Never Never Land

You know, my momma said  
There are only two things in life that are constant  
That's change  
And change

It feels like somethings missing but I just dont know  
It's like Im not the same man that I was, no more  
And all these crazy places that I usually know  
Are just not as exciting as they were before

I think about you constantly  
It surprises me how I've changed  
My friends are coming down on me  
Saying a player never changes the game

Those fellows live in Never Never Land  
Right next to peter pan cuz nobody wants to grow old,  
Those fellows live in Never Never Land  
Theyll never understand what it's like to be in love.

Never Never Land right next to peter pan cuz nobody  
wants to grow old, Those fellows live in Never Never Land  
they'll never understand what its like to be in love.

It feels like somethings moving inside of me  
My heart is doing back flips in spite of me  
And there's no place that I would rather be  
Than with you and my kids, my family

I think about you constantly  
You going to be my wife eventually  
It dont matter what my friends say to me  
Theres no changing my mind, so ya'll just pray for me.

Never Never Land  
right next to peter pan  
cuz nobody wants to grow old,  
Those fellows live in  
Never Never Land  
they'll never understand  
what its like to be in love.

Never Never Land  
right next to peter pan  
cuz nobody wants to grow old,  
Those fellows live in

Never Never Land  
they'll never understand what its like to be in love.

Hold up wait a minute, how my heart slipped  
dont be putting my woman in it,  
She ain't got nothing to do with this spoot,  
She is a deak and she chills in the pool pit

I don't even need to say no more,  
You ain't got the disease but u expect the cure,  
Down on your knees praying for that new porche  
while she's walking out that door,

Those fellows live in Never Never Land  
right next to peter pan cuz nobody wants to grow old,

Those fellows live in Never Never Land  
they'll never understand what it's like to be in love.

Never Never Land right next to peter pan cuz nobody  
wants to grow old, Those fellows live in Never Never Land  
they'll never understand what its like to be in love.

And I dont care what they told you  
30 is not the new 20 its the same old 30  
dont be mad at me jay im just the messenger baby,  
Im just the messenger!
