

Lyfe, Must Be Nice

1st Verse:

Must be nice

Having someone who understands the life you live

Must be nice

Having someone who's slow to take and quick to give

Must be nice

Having someone who sticks around when the rough times get thick

someone who's smile is bright enough to make the projects feel like a mansion

Must be nice

Having someone who loves you despite your faults

Must be nice

Having someone who talks the talk but also walks the walk

Must be nice

Having someone who understands that a thug has feelings too

someone who loves you for sho'

you just remember to never let 'em go

Chorus:

'cause Even when your hustling days are gone

She'll be by your side still holding on and Even when those 20's stop spinning

and all those gold-digging women disappear

she'll still be here

2nd Verse:

Must be nice

Having someone you can come home to from a long day of work

Must be nice

Having someone you don't have to show they know exactly where it hurts

Must be nice

Having someone who trusts you despite what they've heard

Someone as mighty as a lion but still as gentle as a bluebird

Must be nice

Having someone you don't have to tell when you don't want to be alone

Must be nice

Having someone you can grow old with until God calls y'all home

Must be nice

Having someone who understands that a thug has feelings too

someone who loves you for sho'you'll never let 'em go

Chorus (2x)
