

Lykke Li, HAPPY HURTS

Look for you on every street
Drop down in my seat
Flying memories

Look for you on every street
Drop down in my seat
Flaming memories

You put me in the middle
Now we're back on the road we started
You played me like a fiddle
You pass me by

Silver Chevy
Happy hurts
Never ready
Summer burns
Silver Chevy
Drive away
Back to her

Nothing's ever ever green
Unwrite the last scene
Erase my memory

Still got your other woman
That's not what you said you wanted
I loved you like she couldn't
She's passing by

Silver Chevy
Happy hurts
Never ready
Summer burns
Silver Chevy
Drive away
Back to her

Sky song, sky song, sky song
If you dive, I dive, I dive
Sky song, sky song

Sky song, sky song, sky song
If you dive, I dive, I dive
Sky song, sky song

Did you mean what you said
With your hand in my hand?
That you never let go, oh no

Did you mean what you said
With your hand in my hand?
That you never let go, oh no
