

Lykke Li, Heart Of Steel

Oh heart of steel, don't kill the song
That sings so we, can heal the harm inside
Don't leave me stranded, don't leave me alone
Don't leave me dying, without a lover to hold

Oh my heart, don't break the promise
Every time I pay the price
For a heart that can't be broken, oh
Oh heart of steel, you reel me in
Oh heart of steel, I can't let you win

Don't run, don't hide
Don't fight when I finally find
A hand to hold, a song that clings with mine
Don't leave me stranded, don't leave me alone
Don't leave me dying, without a lover to hold

Oh my heart, don't break the promise
Every time I pay the price
For a heart that can't be broken, oh
Oh heart of steel, you reel me in
Oh heart of steel, I can't let you win

Every night I feel you burning
Every night I hear you calling
Every night it's only you and I

Oh my heart, don't break the promise
Every time I pay the price
For a heart that can't be broken, oh
Oh heart of steel, you reel me in
Oh heart of steel, I can't let you win
Oh heart of steel, you reel me in
Oh heart of steel, I can't let you win
