## Lykke Li, Heart Of Steel

Oh heart of steel, don't kill the song That sings so we, can heal the harm inside Don't leave me stranded, don't leave me alone Don't me leave me dying, without a lover to hold

Oh my heart, don't break the promise Every time I pay the price For a heart that can't be broken, oh Oh heart od steel, you reel me in Oh heart of steel, I can't let you win

Don't run, don't hide Don't fight when I finally find A hand to hold, a song that clings with mine Don't leave me stranded, don't leave me alone Don't me leave me dying, without a lover to hold

Oh my heart, don't break the promise Every time I pay the price For a heart that can't be broken, oh Oh heart od steel, you reel me in Oh heart of steel, I can't let you win

Every night I feel you burning Every night I hear you calling Every night it's only you and I

Oh my heart, don't break the promise Every time I pay the price For a heart that can't be broken, oh Oh heart od steel, you reel me in Oh heart of steel, I can't let you win Oh heart of steel, I can't let you win Oh heart of steel, I can't let you win
