

# Lyle Lovett, Just The Morning

(Lyle Lovett)

Lie beside me  
Whisper to me that you want me  
Arms around me  
Whisper to me that you want me  
There's nothing here to be afraid of  
It's just the morning

Stop you talking  
Into the night now don't you worry  
Stop your tossing  
Into the night now don't you worry  
There's nothing here to be afraid of  
It's just the morning

It's just the morning  
The coffee's almost done  
You can smell it crawling in here from the kitchen  
It's just the morning  
Falling through the window  
And the floor it's always cold

If you see me  
Can you tell me if I'm sleeping  
If you hear me  
Can you tell me what I'm dreaming  
There's nothing here to be afraid of  
It's just the morning

It's just the morning  
The coffee's almost done  
You can smell it crawling in here from the kitchen  
It's just the morning  
Falling through the window  
And the floor it's always cold

So lie beside me  
Whisper to me that you want me  
Arms around me  
Whisper to me that you know me  
There's nothing here to be afraid of  
It's just the morning
