

# Lyle Lovett, She Makes Me Feel Good

(Lyle Lovett)

She's got big red lips  
She's got big brown eyes  
When she treats me right  
It's a big surprise  
She won't do anything  
That she said she would  
She makes me feel good  
She makes me feel good

I ask her come here baby  
She tells me no, no  
I ask me drive me here  
She tells me drive your own  
She likes to race my motor  
Then slam my hood  
She makes me feel good  
She makes me feel good

When the angels look down from above  
They see a very special love  
How she makes me do what no one could  
She makes me feel good  
She makes me feel good

So buddy if you're feeling down and blue  
And your girlfriend treats you bad too  
Man just remember what she's bound to do  
She'll make you feel good  
She'll make you feel good

She's got big red lips  
She's got big brown eyes  
When she treats me right  
It's a big surprise  
She won't do anything  
That she said she would  
She makes me feel good  
She makes me feel good
