

Lyle Lovett, You Can't Resist It

(Lyle Lovett)

She was old enough
To know better
And she was strong enough
To be true
And she was hard enough
To know whether
He was smart enough
To know what to do

And you can't resist it
When it happens to you
No you can't resist it
When it happens to you

And you can tell your story
And you can swear it's true
But you can save your lying
For some other fool

And you can't resist it
When it happens to you
No you can't resist it
When it happens to you

She was old enough
To know better
And she was strong enough
To be true
And she was hard enough
To know whether
He was smart enough
To know what to do

And you can't resist it
When it happens to you
No you can't resist it
When it happens to you
And you can't resist it
When it happens to you
No you can't resist it
When it happens to you
