

# Lynn Anderson, Don't Wish Me Merry Christmas

Children are singing just outside my door  
Snowflakes are falling it's Christmas once more  
Everyone's happy but I feel so blue it's just not like Christmas since I don't have you  
So don't wish me merry Christmas this year for how could that ever be  
Tell me how could Christmas be merry and bright if you're not here with me

We used to add presents and hang mistletoe  
Then sit by the fireside and turn the light low  
But things are so different since you went away  
And now to me Christmas is just another day  
So don't wish me merry Christmas...
