

Lynn Anderson, Lonely Women Make Good Love

Lonely women make good lovers
They're all at mercy of a good lookin' smooth talkin' man
Lonely women make good lovers
So if you got a woman better treat her just as good as you can

Lots of times a lonely girl will go out on the town
With no thought of evil on her mind
She don't try to plant bad seeds but there's something every woman needs
And a friendly smile will tempt her every time
Lonely women make good lovers...

Once a woman's tasted love she can't live without it
She'll search for something warm when she gets cold
And if her lips are wet with wine when it comes to lovin' time
She'll trade her pride for something warm to hold
Lonely women make good lovers...
Lonely women make good lovers...
