

Lynn Anderson, My Friend

If I my friend can tell you when you my friend are wrong
Not to do what you want to just because it's wrong
Well then my friend impassing we've been friends too long
And I my friend must tell you leave that man alone
Your little girl might not understand and you know your little baby would cry
And that would you do if their daddy knew and he told you goodbye
Let it end my friend say it's over and thank the stars above
That you got a home to go on to and a sweet sweet man to love
I must say my friend if you're still my friend leave that man alone
Leave my man alone
