Lynn Anderson, That's What Loving You Has Mea

Did you ever watched a youngster's eyes when you gave him his first puppy Or see a prisoner smile when the warden says you're free Or a sinner cry with happiness when the Lord just filled his needs Well that's what loving you has meant to me Did you ever stand beside someone when you knew that they were wrong Or watch an acorn grow into a tree Did you ever have your ship come in when you thought that it was lost Well that's what loving you has meant to me That's what loving you has meant to me I'll never want somebody new when your world ends then mine ends too That's what loving you has meant to me That's what loving you has meant to me That's what loving you has meant to me
