

Lynn Anderson, Too Much Of You

Too much of you still on my mind thinking of you almost all the time
Missing you since you left me behind I've got too much of you still on my mind

When you left I thought maybe it was best for we disagreed and quarreled all the time
Now I'm not so sure I should have let you go
For I've got too much of you still on my mind
Too much of you...

Without thinking I let you walk away that was a big mistake now I find
You're gone and now I know it's wrong this way
I've got too much of you still on my mind
