

Lynn Anderson, We've Got To Get It On Again

We never talk there was a time when we hadn't enough words to say
We never touch but I remember when you couldn't keep your hands away
The thrill is gone there's no desire now we've got to feed the fire
We've got to get it on again work it out together
Learn to love again we've got to make it right
Come on we've got to get it on again get out right together
Fall in love again we keep our love alive

We never laugh we used to know so many happy songs
We never kiss in the penetrating way that ease to turn me on
Once there was fire in our lives silver spots that used to fly
We've got to get it on again...

[choir]

Once there was fire in our lives silver spots that used to fly
We've got to get it on again...
