

# Lynyrd Skynyrd, Michelle

Michelle, little girl I need you baby more than the air I breathe  
My love for you grows stronger babe  
My words you must believe  
Well I need to see you laugh again and I want to see you smile  
Michelle, little girl I love you baby you're my only child

Michelle, little girl the pain for you is hurting me inside  
At night I think of you sometimes I lean my head and cry  
I need to see you laugh again and I want to see you smile  
Michelle, little girl I love you baby you're my only child

Michelle, little girl I need you baby more than the air I breathe  
My love for you grows stronger babe  
My words you must believe  
Well I need to see you laugh again and I want to see you smile  
Michelle, little girl I love you baby you're my only child
