

# Lynyrd Skynyrd, Take Your Time

(Ronnie Van Zant - Ed King)

My poor broke mama told me  
When I was twelve years old  
You eat and talk much too fast  
There's one thing you should know  
Take your time my sweet baby  
Take your time my blue eyed son  
Well you may never have his money  
But you won't miss no rich man's fun  
I can never give you money honey  
I can never buy you clothes  
But the way them women been lookin' at you  
Someday you should have both  
If you take your time my sweet baby  
Take your time and love them slow  
And if you play your cards right  
You won't never wait no more

Well the ladies like their diamonds  
They like their brand new clothes  
But I was blessed with plenty of other things they love the most  
I take my time with the ladies  
I take my time and I love 'em slow  
And since I turned thirteen  
Lord, I ain't never wait no more

I can never give you money honey  
I can never buy you clothes  
But the way them schoolgirls look at you  
Someday you should have both  
If you take your time my sweet baby  
Take your time and be my son  
Well you might never have his money  
But you won't miss his fun
