

M els, So Good (At What You Do, Estonia - piose

I've been on the road for way too long
I've been singing every single song
Overplayed on the radio
Everywhere I go

I've been hearing things about You now
Well isn't that the way it always goes
Used to take it all and play along
But no more

I don't realise why You like telling lies on the regular
You know that I've tried not to cry
But I can't, 'cause You hurt me good

I don't miss You
I don't wanna be with You
Don't You know that You're so good at what You do
I've been hurting
Got me breathless
Such a burden
Left me restless
I don't miss You
That's the last thing I would do

I've been making right's of all my wrongs
I've been losing sleep missing my home
Wanna see my dog, my dad and mom
But not You

I don't realise why You like throwing knives at the bullseye
You stuck behind my back, cut some slack
Give me back what i once lost (back what I once lost)

I don't miss You
I don't wanna be with You
Don't You know that You're so good at what You do
I've been hurting
Got me breathless
Such a burden
Left me restless
I don't miss You
That's the last thing I would do

I don't wanna see Your face again
I want to erase You from my head
Waiting for these memories to fade
I'm so tired of this masquerade

I don't miss You
I don't wanna be with You
Don't You know that You're so good at what You do
I've been hurting
Got me breathless
Such a burden
Left me restless
I don't miss You
That's the last thing I would do
