Stand up  
Light up  
Jump up  
Stand up, light up, jump up, put it up  
Pop up anywhere that I want to  
There's not too much that I won't do  
People test the sounds that they've grown to  
There's not too much that I haven't been through

Feel the synergy from when you woke up  
Get your energy so you better spark up  
Fully loaded feel the vibes non stop  
Got the party swingin like its a nun chuck

Sonic energy doesn't need a battery  
Assault the system, keep the charge positive  
Bad start so my power doesn't run out  
Watts kilohertz got the sun out  
Harley weir that joker accessory  
Its a mood like a puc you gotta follow me  
Sensor me cause you can't make sense of me  
Now I'm bringing heat for that century
