

# M People, Testify

A boy and girl  
in a mixed up world.  
But ain't nothing wrong with the life that we can make.  
Shelter me, help me breathe.  
Let's celebrate a life that's made for us.

The longer it lasts and the better it gets  
The longer it lasts and the better it gets  
Falling in love, I've got no regrets  
Raining down on me

So we can testify  
You and I  
Because your love has got me on a mighty high  
Testify mmm yeah  
You and I  
I'm gonna testify cos you're the reason why.

Born to a kiss  
A little tenderness  
But it ain't no sin to be glad that you're alive.  
My soul-mate, I can't contemplate  
a solo life so come on let's make a life time.

The longer it lasts and the better it gets  
The longer it lasts and the better it gets  
Reach out for me, hold me tight and let's  
Bring it down on me

Chorus.

Cos I believe in your magic spell  
And I believe only time will tell  
Every love has got it's problems  
we'll solve 'em.  
So take my hand and make a stand  
Love will conquer all.

Chorus.
