

# M. Pokora, They Talk Shit About Me

"Verbz"

He's my number one  
He's my number one  
He's my number one  
He's my number one  
He's my number one  
He's my number one  
He's...

"M. Pokora"

They keep telling me, Don't trust a beautiful girl  
But they can't get no girl like me  
Sexy like a strip show  
But she got the brains though  
Tag-team, she's my M.V.P  
They ain't into us  
They're so envious  
Trying to tell me that my girl's too dangerous  
But she's my Mrs. P  
That's P for Perfection  
Her attention is all I need

"M. Pokora" & "Verbz"

"There goes my baby  
And ain't she the real thing  
I got her now"  
"He's my number one  
He's my number one  
H-h-he's my number one  
He's my darlin'  
And he got my heart set  
I'm talking about"  
"She's my number one  
She's my number one  
Sh-sh-she's my number one"

"They talk"

""They talk shit about me  
They talk shit about me  
They talk shit about me  
They talk shit about me  
They talk shit about me  
They talk shit about me""

"Verbz"

All my girlfriends are j-j-jealous  
They don't like my man cos he's g-g-generous  
Thinking that they're way, way, way ahead of us  
They keep telling us it won't never last  
He's a bad influence  
They so envious  
I think the gravity is stronger  
Cos I'm falling fast  
Two halves make a whole  
Two hearts make a soul  
My body, you're body  
Baby, do the math

"M. Pokora" & "Verbz"

"There goes my baby  
And ain't she the real thing  
I got her now"  
"He's my number one  
He's my number one

H-h-he's my number one  
He's my darlin'  
And he got my heart set  
I'm talking about"  
"She's my number one

Sh-sh-she's my number one  
She's my number one"

""They talk shit about me

"M. Pokora" & "Verbz"  
"My girl is a permanent fixture, Jamaican and Latina  
An affirmative mixture"  
"Yeah, you talk about him bad, Ima bury you six foot  
Cos he gon' be my man till the planet has blown up"  
"She's my Venus, galaxies can't get in between us"  
""We're Adam and Eve with a remix""  
"I'd get her a star from Heaven but I can't reach it  
I can't find a diamond as beautiful as she is"  
"We go toge--we go toge-ge-gether  
Don't listen to your lonely ex-girlfriends ever  
Remember, baby, you're the Ben & Jerry's - I'm the cone"  
"You're the stone, I'm the setting  
You won't ever be alone"  
"Ha no! Cos I'm only a call away-ay-ay  
And though they say it just another clich--"  
"She's my la-ady and they say no way  
She's my lady  
J'l'aime depuis le lycee"

"M. Pokora" & "Verbz"
