

# Maarja, All The Love You Needed

You are trying hard to find  
an image in your mind  
you held so high  
Every hour every day  
you get loneliness away  
by moving on

You just never had the time  
to stop and see the sign

Cause all the love you needed was always close at hand  
still you couldn't understand ( all you needed)  
All the love you needed was always to be found  
if you only turned around (if you only turned around)

You always needed to move on  
the feeling grew so strong  
within you  
You were reaching for the sky  
time just passed you by  
as you went on

You just never had the time  
to stop and see the sign

Cause all the love you needed was always close at hand  
still you couldn't understand ( all you needed)  
All the love you needed was always to be found  
if you only turned around (if you only turned around)

Cause all the love you needed was always close at hand  
still you couldn't understand ( all you needed)  
All the love you needed was always to be found  
if you only turned around

Cause all the love you needed was always close at hand  
still you couldn't understand ( all you needed)  
All the love you needed was always to be found  
if you only turned around (if you only turned around)

All the love you needed  
All the dreams you had  
All the love you needed  
if you only turned around

All the love you needed  
All the dreams you had  
All the love you needed  
if you only turned around

All the love
