

Maarja Kivi, could you

Just look at you...
You haven't a clue..
Hidden feelings,
Things I wan't forget.
You'd cheat and you'd lie,
The crimes you cant' deny.
It's over now..
Baby it's over now!
Chorus:
Could you just do yourself a favour
and say "goodbye" now!
Could you just turn around and die!
Could you just come to
see your neighbour and stay forever!
Could you just disappear tonight!
Don't run away and cry...
Don't run away and cry...
Could you! (Could you.. Could you.. Could you..)
I've been betrayed.
You cheat and you straight.
You're the hero.
It's time to play the price.
You've nothing, but scum
this feeling makes me numb.
So now's the time.
It's time to bring this chance.
Chorus:..
Could you...
Could you...
Could you...
I'm not afraid.
The mares will fade.
'Cause I know that,
you can't do think to me...
I've had enough...
You treated me so rough..
And see the evil.
Evil in your eyes..
Chorus:..
Could you..
Could you..
Could you...
Don't run away and cry
just run away and cry
Could you...
Could you...
Could you...
Don't run away and cry
just run away and cry
Could you.
Could you.
Could you...
