

Mabel, Crying On The Dance Floor

No teardrops on the dance floor, not tonight
Yeah, you're way too beautiful, yeah
Wife material, I'm for real
Diamonds don't compare to how you shine
No, I ain't never gonna let you fall
So let me pick you up at nine, yeah
Wear that dress, one that's red
Trust me, I'ma take you on a ride
Yeah, I'll get on your level, rearrange your schedule
Show you that you're special when you forget
I'ma take a sad girl, turn her to a bad girl
Even at your worst, you're better than the rest
Find someone to kiss tonight
Underneath the flashing lights
We gon' have the time of our lives
Go on, kiss the past goodbye
I'ma make you feel alive
Let me see that fire in your eyes
Ain't no crying on the dance floor
Dance for me, dance
Ain't no crying on the dance floor
Dance for me, dance
Baby, this is what we came for
Dance for me, dance
Ain't no crying on the dance floor
Dance for me, dance for me
Yeah, no drama in the bathroom, not tonight
That would be so typical, yeah (oh yeah)
Know your worth, you deserve
Every single star that's in the sky
Yeah, I'll get on your level, rearrange your schedule
Show you that you're special when you forget
I'ma take a sad girl, turn her to a bad girl
Even at your worst, you're better than the rest
Find someone to kiss tonight
Underneath the flashing lights
We gon' have the time of our lives (oh our lives)
Go on, kiss the past goodbye
I'ma make you feel alive
Let me see that fire in your eyes
Ain't no crying on the dance floor
Dance for me, dance
Ain't no crying on the dance floor
Dance for me, dance
Baby, this is what we came for
Dance for me, dance
Ain't no crying on the dance floor
Dance for me
Ain't no crying on the dance floor
Ain't no crying on the dance floor
Baby, this is what we came for
No crying on the dance floor
Dance for me, dance for me
No teardrops on the dance floor, not tonight
Dance for me, dance
Dance for me, dance
Dance for me, dance
Dance for me, dance for me
Dance for me, dance
Dance for me, dance (dance for me, dance for me)
Dance for me, dance
Dance for me, dance for me
