

Mabel, My Boy My Town

Straight up,
Tell me everything you've been through
Since I've been away, showing off
You've got every little thing going on for you to show
How come we can't connect
How quickly you forget
Straight up,
Tell me everything you've been through

Let's meet in the middle
'Cause we both want a little bit more
If a way's what you're giving
Then I won't forgive it
That you leave me just wanting it all
Let's meet in the middle
Halfway in the middle
Let's meet in the middle
Halfway in the middle

Play tough, so now you're way to busy
For me to be the one I love
What you made of
You gotta show me if you want me to belong to you
Not just be a silhouette's
Someone that you forget
Play tough, so now you're way to busy
For me

Let's meet in the middle
'Cause we both want a little bit more
If a way's what you're giving
Then I won't forgive it
That you leave me just wanting it all
Let's meet in the middle
Halfway in the middle
Let's meet in the middle
Halfway in the middle

Don't hide it, don't hide it
I can see you tryina hide it
I'm tired of this fighting, just take me there
Head in the clouds, and it's driving me crazy
I'm tired of this fighting, just take me there
Don't hide it, don't hide it
I can see you tryina hide it
I'm tired of this fighting, just take me there
Head in the clouds, and it's driving me crazy
I'm tired of this fighting, and I'm tired

Let's meet in the middle
'Cause we both want a little bit more
If a way's what you're giving
Then I won't forgive it
That you leave me just wanting it all
Let's meet in the middle
Halfway in the middle
Let's meet in the middle
Halfway in the middle
