

# Machinae Supremacy, Edge And Pearl

I'm infinite, beyond a doubt  
No piece of shit's gonna take me out  
And I will not rest until this hell race is over  
And the lights go out  
I only do just what I believe in  
Don't bet on my enemies  
I have not a sinister heart, but a mind at peace

Be my prize, don't go, don't leave my eyes  
Only for tonight  
Give me life, hold on, don't close your eyes  
Not before tonight

I live for this, and I cite my pride  
Now is the time when to pick a side  
Cause you'll have forever to remember this moment  
And how you were denied  
I only do what I have to, to win  
To wake up our species  
I have not a sinister heart, but a mind at peace

Do you fear that It's no use, that if you fight you'll only lose what little you have?  
Or don't you know enough to be afraid?  
So this is what you choose? Fucking silence and abuse? No R 4 U!  
Just go back to sleep and die a tool!!!
