

# Machinae Supremacy, Elite

Do you find yourself in the air  
Flying away?  
Do you think that you're awake  
just because you are?

Don't you know? How could you not understand?

Anyone with their ear to the ground  
Knows we will not be bound.  
You can push but you can't beat us down  
We deliver the sound.  
We were born and belong underground  
But we are all around.  
You can try but you can't own this crown  
It was ours to be found.

There is no way that you could know  
Where Murphy goes.  
If you fall down off the road  
You get back up again.

Don't you know? How could you not understand?

Anyone with their ear to the ground  
Knows we will not be bound.  
You can push but you can't beat us down  
We deliver the sound.  
We were born and belong underground  
But we are all around.  
You can try but you can't own this crown  
It was ours to be found.

Did you doubt us from what came before?  
Were you not a believer?  
Here and now all your doubts are no more  
This is redeemer.

Anyone with their ear to the ground  
Knows we will not be bound.  
You can push but you can't beat us down  
We deliver the sound.  
We were born and belong underground  
But we are all around.  
You can try but you can't own this crown  
It was ours to be found.

Do you think that you are awake?
