

Machinae Supremacy, Legion Of Stoopid

It's time to choose
Just don't fall for another ruse
You only lose
Watch as they abuse.
You keep it up.
And you're only asking for More
You need to stop
Believing they work for (you).

As time goes.
The lies unfold.
But once you know
You forget what you were told.

They twist and redefine.
The truth they tell is true to them only.
They claim divine.
And assemble at the frontlines.
You're out of line
If you question or speak your mind
They want you blind
Stupid and behind.

What to believe? (What's not to believe?)
Nowhere in sight in industry
Can you receive
Without being deceived.
This is your brain
And this is your brain on Fox news
You are insane
If you buy their sell-out truth.

They twist and redefine.
The truth they tell is true to them only.
They claim divine.
And assemble at the frontlines.
You're out of line
If you question or speak your mind
They want you blind
Stupid and behind.

Don't be stoopid now!

Just like the (R)ecording (I)ndustry (A)sshholes of (A)merica
They promote mass ignorance cause that's what floats their aerals.

Don't let them turn you into legion of stoopid.
Don't let them turn you into drones.
Right now, knowledge is the one weapon
That you can not throw away.
Or else we all will pay.
