

Machine Gun Fellatio, All By Myself

all by myself
still here the way she left me
i'll buy myself
some shit to get me through this day
skipped off to play with someone else
skipped off to play with someone else
i found the note she left and that's all she had to say
so it seems my love has upped and gone away
yeah so it seems my love has upped and gone away
all by myself
all by myself
all by myself
all by myself
all by herself
somehow i don't believe she's
all by herself
but i hope she makes it through okay
skipped off to play with someone else
stripped off to play with someone else
i'm out to find someone to make me feel okay
and when we do we'll make love seven times a day
yeah when i do we'll get it on seven times a day
