

Machine Gun Fellatio, Take It Slow

Do, do do do do do
Take it slow
On a fragment of melody
Take it slow
And you'll find your way back to me
Take it slow
Get out your music & dance with me
Get out your music & dance with me
Take it slow
On a fragment of melody
Take it slow
And you'll find your way back to me
Take it slow
I don't wanna do it if you don't with me
I don't wanna do it if you don't with me
I don't wanna do it if you won't with me
I don't wanna see it if you won't see
I don't wanna see you if you won't see me
Take it slow
I waited for you
Take it slow
On a fragment of melody
Take it slow
And you'll find your way back to me
Take it slow
On & on around the world
On & on around Madonna's trousers
On & on around the world you come back to me
On & on around the world
On & on around Madonna's trousers
On & on around the world you come back to me
Take it slow
On & on around the world
On & on around Madonna's trousers
On & on around the world you come back to me
Take it slow
On & on around the world
Back to me
On & on around Madonna's trousers
Take it slow
On & on around the world you come back to me
Take it slow
On & on around the world
Back to me
On & on around Madonna's trousers
Take it slow
On & on around the world you come back to me
Go home & have a hot meal
Because tomorrow you will die
