

Machine Gun Kelly, kevin and barracuda (interlude)

Ok, wait, Pete, before we start, can you just give me some beep-boops, beep-boop-boop
Beep-boop-boop, beep-boop-boop-boop, beep-boop-boop, boop
What's, what's your alien name?
Roger, no, I'm gonna be Kevin, dude
I wanna be Kevin the alien
Why was mine such a bad name? Mine was Barracuda
Kevin and Barracuda, dude
I'm on, I'm like, coming down off mushrooms by the way
Oh, that's great
I can hear this water running, hold on
Is that water still on?
That's not me
Oh, it's not? (Woah)
Could you be both aliens?
You want me to be both aliens?
Just say, say
"You know what place blows? Earth"
"I agree
You know what place blows? Earth
I agree, grab the sack, let's go to Mars"
We're such losers
That's why we gotta leave Earth, man
"Don't forget, bring the weed"
