

# Machine Gun Kelly, On Fire (Drug Dealer Girl Part 1)

I am on fire  
I feel like I can't stop burning  
I am on fire, yeah  
I feel like I can't stop burning

Tell me, why does everything that's bad feel so fucking good?  
Devil in a red dress, she killing me, I knew she would  
So bury me one foot for every inch of heel she's wearing

I'm in lust, still, I can't trust this bitch, but I keep on staring  
Matter of fact, fuck that, no emotions, let's get high as fuck  
I don't need a light, she fire me up  
Pullin' out white like a Styrofoam cup  
No hair cut, but she lines me up (What the fuck?)  
I don't even do this shit  
What would happen if my friends knew this shit?  
And why the hell can't I refuse this bitch?  
This shit is crazy

I am on fire  
I feel like I can't stop burning  
I am on fire, yeah  
I feel like I can't stop burning

She got her legs spread wide for the kid  
And she begging me to come and get up in it  
Touching herself while I take off my 11's  
Got a girl back home and she calling every minute  
So I pick up like, "bitch, mind your motherfucking business"  
I'm serious, I'm trippin', no, literally, I'm trippin'  
Out of all those drinks, anything could have slipped in  
Not to mention what she had me sniffin'  
But she grabbed my dick, told me "forget about it," and bit my lip  
I told her, "turn around while I turn the music loud  
"Whenever the bass hits then you strip," and then she did  
But she pulled a little baggie out of her panties  
And put a pill on her breast  
My mind said no, my dick said yes  
I'm willing to do whatever to feel her sex  
This shit is crazy

I am on fire  
I feel like I can't stop burning  
I am on fire, yeah  
I feel like I can't stop burning

And she told me, "speed it up, fuck me good  
"Beat this pussy up like you should  
"Lay back down, keep it up  
"Let me show you how a real bitch do"  
All she wanna do is get dick and run  
All I wanna do with this chick is cum  
I've been in the pussy for about two hours  
But I can't feel my shit, I'm numb  
Her legs shaking and my legs do the same  
But it moves to my chest, to my brain  
To the nerves in my face, so I can't feel that motherfucker  
But this ain't Novocaine, bitch, quit playin'  
I don't even know your name  
"What the fuck you do to me?"  
She said, "I'm the same one sellin' Oz to Mike P  
"And the one that made you OD"  
You stupid bitch

I am on fire  
I feel like I can't stop burning  
I am on fire, yeah  
I feel like I can't stop burning
