

# Machine Gun Kelly, Victory Music

I put it all on the line and pray that God gets me through it, through it  
Came here with nothin' and I don't know any other way to do it  
And it's my victory music, yeah, it's my victory music, yeah

I like the way this feels man, uh  
Kells, bring it back to the map, right up in the middle of it's where you finding me at  
Labels wanna holla, this is where they're signing me at  
Cause my city told me they need me so I'm grindin' for that  
Same clothes, same street, same chucks, same feet  
Same kid I used to be moppin the floors up every week  
I paid the cost to be the boss  
Let's just say I ain't cheap, cause now the same kid is living off a check from every beat  
I'm from Midwest, where they don't forget where they're from  
What they're representing their home mines just tatted on my arm  
And I forever be about it as long as air is in my lungs  
Speaking to you as the kid and I'm as real as they come  
I made a dollar out of cents got a whole nation respect  
Before I was 18 and I did that without a check  
See I used to be a lame now I'm posted in the game, in a top spot  
Top drop, money ain't a thing

I put it all on the line and pray that God gets me through it  
Came here with nothin' and I don't no any other way to do it  
And it's my victory music, yeah, it's my victory music, yeah

Let me get them, west coast, let me get them, down south  
Let me get them, up north, let me get them, yeah  
Let me get them, where's that, let me get them, east coast  
Let me get them, Midwest, let me get them, go

Uh, dedicated to my fans and everyone who wanna see me win  
I swear my life's a major motion picture from beginning to the end  
Only thing is I ain't Hollywood and this here ain't pretend  
Haters try and pull me down but I'm too high up in the air  
Here I'm try and talk down but I'm too high to even care  
I'm on top of the world and I got my baby girl here  
She don't worry about a thing as long as daddy's right there  
Yeah, from the benches to the league, fought through hell and back to get a dream  
Cause as a lightweight, you gotta learn to use your pounds right  
From the bottom to the top this is for victory sounds like

I put it all on the line and pray that God gets me through it  
Came here with nothin' and I dont know any other way to do it  
And it's my victory music, yeah, it's my victory music, yeah
