

# Machine Head, Bay Of Pigs

i gotta rise, i'm sick of your lies  
and i won't be your scapegoat now  
ain't gonna bend and won't 'til the end  
understand on my word i vow

a pig, a pig, that's all you'll ever be  
refuse to cower to the swine  
i'm sick of it, at the end of my wits  
the next time that you fuck with mine

i'm gonna snap like i never have before

[chorus:]  
your law's the flow  
upon this nation  
your lies despised  
by generations

i got a friend might not walk again  
and your laws never helped at all  
go fuck your clause, your probable cause  
power trippin' above us all

afraid, afraid and so you better be  
'cause when i call you're not around  
serve and protect and give some respect  
'cause next time that you shake me down

i'm gonna snap like i never have before

[chorus:]  
your lies despised  
your law's the flaw  
upon this nation  
upon this nation  
upon this nation  
your lies despised  
by generations
