

Machine Head, Down To None

[chorus:]

bow down to no one
bow down to none

straight down
been going
been sleepwalkin'
in a violent haze

this world
in ruin
the chain shackles
like a foul disease

[chorus]

this rage
this struggle
it is a feeling
that's devouring

can't break
can't fuckin' give in
the pain will lead us
through the blistehing (blistering?)

cold

[chorus]
