Machine Head, House Of Suffering

In this house of suffering I gotta let some joy in I hear that freedom will win Oh where oh where can jah love My dear, it's here in the underground Inside the hearts of your own children In this house of suffering I spiritualogic grin, In one way grace is my friend To conquer doom and sin And all the nations lying While all our people crying And they stop at Nothing!...nothing!...nothing! In this house of suffering Don,t want but just one thing Got to have my origin In this house of Suffering.
