

# Machinemade God, Next To Me

There she is, once again on her knees  
breaking down right in front of me  
Once again I just fall for her lies  
I deceive myself

This is murderous I know,  
Like leading the sheep to wolves,  
I believe in her words  
and make the same mistake again

I cannot sleep without her breath  
right next to me  
and I can't breath  
each time she's leaving me

Here I am, once again on my knees  
until the moment, it all comes down  
The day, the hour I understand

This kills me  
And I surrender!  
You kill me

This is murderous I know,  
Like leading the sheep to wolves,  
I believe in her words  
and make the same mistake again

I cannot sleep without her breath  
right next to me  
and I can't breath  
each time she's leaving me
