

Mad At The World, All the Lonely Sheep

It's you, and you're caught up
In a vicious, endless game
Some people call it love
Some people call it pain
And so you walk and wonder
In a mind of hope and dreams
And the love that you adore
Has a price you can't afford

BRIDGE

And so you try
But it didn't work out
You asked me why
Now, I can tell you why

Oh, stop that listening
To the voice in your other ear
'Cause it's telling you
"You can't live another year"
So into space you soar
As depression roars
You're so alone and empty
And you can't live without

BRIDGE

CHORUS

All the lonely sheep
Cold, alone and worried
Your Father will complete
What you can't
All the lonely sheep
Cold, alone and worried
Your Father will complete
What you can't

It's another day along the way
On the road that leads where it leads
You continue to continue
To do nothing about nothing
You think this world is mad
You think we've all been had
But don't believe a lie
'Cause there's still a way for those who try

BRIDGE

CHORUS

CHORUS

Lonely hearts
Beat the silence
