

# Mad Caddies, 10 West

Well I'm back on the road again lost among the city lights  
We step up harder just to make it to the show tonight  
With yesterday's antics still playing in my head  
Well another day's upon us so let's do it all again.  
Now it's just another town another day another year  
And we got to wait till five o'clock before we crack a beer  
Somewhere it's gonna be five o'clock yeah that's what we say  
It's all just a game to keep ourselves sane.

Drink smoke drink smoke this is what we do  
Drink smoke drink smoke playing it for you

Born to roam here we go yeah  
Another city and another day  
The road's my home we're all alone yeah  
Out on the streets is where we gotta stay

Well we barely see the light of the sun  
With all the midnight fun  
It's coming down on my head I feel it  
But music's part of my soul  
So I jump back in head first my arms around it.

Outside tonight I don't think there's really anything going on around here.
