Mad Caddies, I'm So Alone

I'm so alone
I don't have no home
So when you gonna bring your sweet love on home to me

Red Mary come from the ground
Well she take away everything
She make everybody feel high
She let me down
I said ooooooooooh nannanaa

Well you can live your life except for the bomb
When you feel that nothing's wrong
and tell the ones you love they should
stop giving you names like Fanny...or Lenny
So you got a lot of problems to work out, man
Let me tell you, I've read this book before
And in the end the good guys die

So get up, get up
Get out of your chair
Hold your head up high
And cut your hair
I know what you're thinking but you just have to do it
Whatever makes you happy, get right to it

So you think you've really got it made
Don't you understand that there is much more at stake
And how long do you think you can live like this?
Well there is only one thing left to do
Step back, reflect and think things through
Compare yourself to me, I'm just like you

Chorus

Days come in on me
Like monsters of my drug abuse
And all I wanna do is have some fun

Well I'm walking down the streets of life
I don't know where to go
Which way do I turn, I don't really know
Mass confusion fills my mind, I can't put things to words
Misery, it fills my heart and everything hurts

Days come in on me
Like monsters of my drug abuse
And all I wanna do is have some fun
