

# Mad Caddies, Mum's The Word

Well approximation of the situation tends to bend  
When you have too much to drink  
And you piss off your friends  
You cant talk and you cant walk  
And you don't know you're name  
You find yourself attracted to a very ugly dame

The booze just kills your conscience  
And your dick is in your hand  
And you dont know who the fuck is in your bed
