

Mad Caddies, Popcorn

Another starry night
I lay down by the evening fire
Take a look back at today
Down to the waters edge
I let myself fall back in
The waves will wash it away
Another year is gone
And I know it's been so long
I'm still around and it's okay
My body's aching
The time it's taking
Don't believe I've got another chance
To say I'm gonna make it today
Say I'm gonna make it today

I walk back slowly to the sand
And I just sit down
Thinking about what there is to do
The night sky high above
The land is keeping me safe
The fire in the distance too
Another year is gone
And I know it's been so long
I'm still around and it's okay
My body's aching
The time it's taking
Don't believe I've got another chance
To say I'm gonna make it today
Say I'm gonna make it today

Another year is gone
And I know it's been so long
I'm still around and it's okay
My body's aching
The time it's taking
Don't believe I've got another chance
To say I'm gonna make it today
