

Mad Crowd Disease, One Day Circle

I'm going to make it better
Find a way to pull me through
Gonna break the One Day Circle
Don't ask me to do it again

I'm stuck in the same old routine
I hate myself for doing what I do
When will I ever change
for doing what I do for you
I'm stuck in the same old routine
I hate myself for doing what I do
When will I ever change
for doing what I do for you

Waking up to the same mistakes
Everyday to keep myself amused
Today I'm gonna grab my chances
And not be a fool like all the rest

I'm stuck in the same old routine
I hate myself for doing what I do
When will I ever change
for doing what I do for you
I'm stuck in the same old routine
I hate myself for doing what I do
When will I ever change
for doing what I do for you

All I need is some inspiration
To get up and do what the hell I want
Burst the bubble that I'm trapped in
Get out, and be myself

I'm stuck in the same old routine
I hate myself for doing what I do
When will I ever change
for doing what I do for you
I'm stuck in the same old routine
I hate myself for doing what I do
When will I ever change
for doing what I do for you

Get me out of this One Day Circle
Get me back to normal again
I can't take any more of this so called life
Nothings what it seems to be
Don't be fooled by individuality
