

Mad Crowd Disease, War Against Peace

We're gonna start a revolution
Rebel against authority
Make a stand for what's right
In this War Against Peace
Not listening to any of your shit
Not taking no more politics

You can silence my voice
But you can't mute a crowd
We will keep screaming
What you don't want, loud

F**k the propaganda
You feed our brains with shit
Too many lies, not enough truth
When will you realise
We all know what you don't
One day we're gonna take a risk

You can silence my voice
But you can't mute a crowd
We will keep screaming
What you don't want, loud
