

Mad Sin, Paralyzed

i'm gonna defeat the night high on subterranean wine
muted by the false tongue speakin' people let's kick them straight back in line
i see the babylon kids lookin' for cheap thrills through their bloodshed eyes
i rattle my bones to the rythm of the night
i'm action loaded and it feels alright
hey there! watcha doing? let the engines go!
hey there! what's the matter with you?
let the eyeballs roll welcome to the freakshow!
paralyzed no time to be paralyzed
i'm on therapy tonight
she's kinda trashy, dirty and smart
she's got horizontal megnetic charm
when she starts to go go, she makes me ring my alarm
i'm gonna defeat the night high on subterranean beat
i muted by the false tongue speakin' people
meet the burned out freaks
